Head of PoolParty Academy

Andreas Blumauer
CEO of Semantic Web Company

About the Semantic Integration Training

The Semantic Integration certification training also includes the Semantic Web and Knowledge Engineering training. It is the most advanced training program and covers technical topics in more depth. Semantic Integration experts understand the business demands for application development and can effectively deliver semantic solutions with PoolParty.

Semantic Integration experts have skills and know-how in:

- ✓ mapping business challenges to semantic solutions
- ✓ Knowledge Engineering
- ✓ Enhancing third-party systems with semantics through APIs
- ✓ Semantic Data Integration
- ✓ Querying semantic data
